

## Consultants register

The Australian National Council on Drugs (ANCD) is the principal advisory body to Government on drug policy and plays a critical role in ensuring the voice of the community is heard in relation to drug policies and strategies. As part of this role, the ANCD regularly commissions research and discrete pieces of work to assist it to provide government with currently informed and specifically targeted drug policy advice. 

To ensure that the ANCD can reach the broadest and most relevant expertise when calling for proposals in response to its commissioned projects, we are seeking suitably qualified individuals, consultancy groups or organisations to join our consultants register.

The ANCD will use the consultants register as the primary source to contact you regarding ANCD project tenders. Only those individuals, consultants or organisations listed on our consultants register will be eligible to apply for projects. However, this register does not guarantee project work.
