

ATODA Alcohol Tobacco and Other Drug Information and Harm Reduction Training 2026

About the training

Do you work with people who use alcohol, tobacco and other drugs (ATOD)? Do you want to learn more about drug trends, values and attitudes towards people who use drugs (PWUD) and need some up-to-date information to have more informed conversations with your clients?

For the past ten years ATODA has been hosting its popular one-day alcohol, tobacco and other drugs information and harm reduction training for workers in the ACT. The training has been supported by the Youth Coalition of the ACT, Mental Health Community Coalition and ACT Shelter.

The training will provide participants with improved:

- knowledge of ATOD trends in the ACT and Australia
- understanding of stigma and discrimination towards PWUD
- knowledge of ATOD and harm reduction information to share with clients
- confidence in working with people who use alcohol, tobacco and other drugs
- understanding of how to respond to an overdose

Note: Training is only available to workers in the ACT and numbers are limited to 16 participants to allow for discussion and small group activities.

Training dates

Wednesday 22 April 2026 - 9:30am - 4:30pm

To register scan the QR code:

Tuesday 16 June 2026 - 9:30am - 4:30pm
