Canberra Institute of Technology

Statement of Attainment – Alcohol and Other Drugs Skill Set CHCSS00093

This skill set is designed to upskill individuals working in community services or health settings who support people experiencing alcohol and other drug (AOD) related challenges. You will strengthen your ability to provide safe, person-centred support across a range of service environments, building on your existing experience in the sector.

This course will help develop your practical expertise in assessment, brief intervention, and treatment planning using evidence-based approaches, while enhancing your communication, collaboration, and decision-making skills.

You will also refine your ability to apply harm minimisation and recovery-oriented practices when working with individuals, families, and multidisciplinary teams. This skill set supports you to further develop your capability to respond to complex and changing client needs, strengthening your practice within diverse community and health contexts.

CIT Bruce

Part-time, flexible

Face-to-face
